Learning Objectives & Activities

Module 1: Explore Blended Learning

The learning objectives of this module are:

- 1) Reflecting on your current distance teaching practices, or those you employed during the period of school closures, and considering how you can learn from them
- 2) Understanding what blended learning is and why it is important as an instructional method
- 3) Reflecting on the changing nature of teaching and learning and the need to create student-centred classrooms
- 4) Discovering some key teacher competences required for a successful implementation of blended learning

Module 2: Designing and Planning for Blended Learning

The learning objectives of this module are:

- 1) Acquiring knowledge of the different models of blended learning
- 2) Discovering which model best fits your learners' or educational institution's needs
- 3) Experimenting with creating your own blended learning model

Module 3: Implementing Blended Learning

The learning objectives of this module are:

- 1) Finding out more about individual and collaborative activities
- 2) Exploring synchronous and asynchronous activities
- 3) Becoming familiar with new technologies that can be used for effective implementation of blended learning
- 4) Acquiring knowledge on how to assess learners in blended learning environments

Module 4: Blended Learning in Practice

The learning objectives of this module are:

- 1) Developing a blended learning scenario
- 2) Sharing experiences and inspiring ideas with your colleagues
- 3) Learning from peers
